GOLDEN FUTURE

Project & Initiative Management

GOLDEN FUTURE® has a professional team and continuously increases the number of on-call professionals and experienced workforce teams to execute variety of projects & initiatives. We supervise and execute all projects and initiatives in accordance to the plans, standards and methods our client wishes.

Business Expansion & Franchising Services

Many of the Local businesses reached high levels of success and growth in their markets through the years. However, the ability and execution of expansions is a very tricky business venture and many local brand names has reached a certain level and stopped further expansions due to various reasons. In GOLDEN FUTURE® we provide consultancy services to planning expansions and we introduce the service of “Franchising Management Services” to the local market. We offer clients who aim to expand their presence in the market through franchising a complete set of processes and business relations to carefully set the standards of the franchise and select the perfect business partners to buy the franchise according to the clients well.

Business Development & Consultancy Services

As we chose the path of development to be our direction, we offer our knowledge, experience and connections to our clients in various forms and services as follows.

Business Development

The experienced team of GOLDEN FUTURE® has worked together and separately with many businesses and brands in the market through the years. This advantage enables GOLDEN FUTURE to offer to clients the complete business development solutions and source and manage teams to execute plans and reach goals as needed by our clients.

In the business development service we execute a combination of our services starting at the administrative, financial and operational evaluation followed by creating the appropriate plan to solve the problems at clients business or plans for expansions and opening new markets. This service is highly recommended for businesses struggling in the market or planning a larger market share in the future.

Administrative, Technological & Operational Evaluation

As mentioned Earlier, the Evaluation service is the first part of the business development program and it's the most important factor for planning activities. We offer this service separately to our clients to enable them to evaluate their business standing from a professional bias entity "GOLDEN FUTURE" and we recommend measures and processes in the final reports of evaluation.

Power Of Attorney & Official Representation Services

We believe that our clients are our partners, and to ensure their wellbeing and success is considered to be our own success. Therefore, we offer this service of official & legal representation to clients to overcome the distance barriers and restrictions. This service although offered by other legal specialized firms, we took representation to the next level. We are able to provide delegations and representatives to our clients on Legal, Official, Personal and executive levels. We have partnerships with attorneys and legal counsels for all legal matters locally and internationally and we assure our clients of the best legal practice at all transactions and dealings on his behalf.

Financial Consultation & Auditing Services

The down economy and the development in the higher education has produced a high number of highly qualified underemployed accountants and auditors. GOLDEN FUTURE® took the advantage to set arrangements with a number of professional auditors to establish this sector in our business to complete the set of services we offer to clients.

As the market of small and medium businesses are avoiding the services of auditors due to high costs of service, we aim to provide our clients with the right auditing professional to suit the size and budget of all types of clients and ensure the spread of international standards of accounting for the commercial market in Yemen at all levels.

GOLDEN FUTURE

Market Study And Market Development Services

The market study service is one of our specialties given the wealthy experience we obtained during our long experience and diversified markets. This service is offered to all types and sizes of clients who want to make a difference in their business performance. The market development service is a following service to the market study where we offer our clients the solutions and measures that should be taken to reach their goals.

Economic & Social Development Initiatives

As a group of Professionals and Executives we believe that the development of the people and the society is the main driver for the prosperity and economic development in any environment. Coming from that, we established this sector in GOLDEN FUTURE to be our contribution to the Economic & Social Development in the country.

Building Awareness & Knowledge:

GOLDEN FUTURE® dedicates knowledge, experience, relations and other resources to initiate a number of activities and efforts in the form of Seminars, Training Courses, Conventions and Workshops in association with the best service providers and industry specialists to ensure the development of the society and economy.

GOLDEN FUTURE

Patronage Programs

Understanding the important role of each and every individual in the society to contribute to the economic rehabilitation and development is vital in the current situation of the country. Given our diverse backgrounds and working environments, we encounter talents, capabilities, innovations and other resources. And to ensure the support of talented individuals and to make certain that every possible proposal in the path of the country's economic development is reviewed and studied, we offer our resources to review all business and economic related GOLDEN FUTUREs presented by individuals on periodic terms.

We aim for GOLDEN FUTURE® to be the presentation stage that enables executable GOLDEN FUTUREs to rise in the society and gain the right awareness and support from the economic & commercial society in the country. This channel is our tool to maximize the utilization of every mind and resource in the country towards the development of the Economy and patronage talented individuals.
